

# BACKGROUND SCREENING SERVICES FROM PRAESIDIUM

## Introducing discounted pricing for Church Pension Group

Your first line of defense against sexual offenders is to keep them out of your organization! Deciding who has access to those you serve is one of the most serious decisions you make.

Praesidium's background screening services will help you take a step in the right direction to ensure your employees and volunteers haven't been convicted of criminal offenses and that they are who they say they are.

Industry best practices recommend that organizations check the backgrounds of any employee or volunteer (including parents) who will work closely with children, teens, and vulnerable adults on a regular, recurring basis.

Our convenient online administrative database can track the results and completion dates of your check and can also store this information in Safeguarding Online – ask us how.

**Kids aren't the only ones that hide things.**

## Additional Services

### ViaCheck™

Obtaining viable reference checks requires a sound, systematic methodology. References can provide valuable information about an applicant, but many employers initially refuse to release information. Knowing the right questions to ask—and how to get specific and revealing answers—requires technical expertise. Praesidium uses its ViaCheck™ system to check references for you so you can rest assured that only candidates with suitable references will be forwarded for your consideration.

### AppliScan™

This cost-effective service provides an external review of completed employee and volunteer applications and reference checks to determine whether any known abuse risk indicators are present. Submit the required documents to Praesidium, and within three working days you receive a detailed analysis of each application and specific instructions if follow-up information is required from the applicant.
